

One Day Intensive Workshop Back to Basics of Recovery

with Wally P.
A.A. Archivist and Historian

This effective "program of recovery" is an intensive workshop where you will learn to work all Twelve Steps in one day, just like the early A.A. pioneers! "Back to Basics" is modeled on an original A.A. format from the mid 1940's that produced a 50-75% recovery rate from alcoholism. This workshop is also effective for Al-Anons and for other addictive/compulsive disorders.
